

ALI-X (ALIX) Whitepaper

Version 1.0 | May 2025

Website: <https://www.alixcoin.com>

1. Introduction

ALI-X (symbol: ALIX) is a community-driven TRC-20 token built on the TRON blockchain. Born as a meme coin, ALI-X is designed to evolve into a multi-utility asset that supports real-world services such as logistics, agriculture, smart dairy farms, delivery, and veterinary operations. It aims to unite 100,000+ users under one integrated digital economy.

2. Vision and Mission

Our mission is to transform ALI-X from a simple meme coin into a foundation for a powerful decentralized ecosystem. The long-term vision is to integrate ALI-X across platforms that manage transport, smart farming, milk tracking systems, and digital identity verification.

3. Tokenomics

- Token Name: ALI-X
- Symbol: ALIX
- Standard: TRC-20
- Total Supply: 100,000,000 ALIX
- Decimals: 18
- Contract Address: TWB9mGX6aN8xGaXBf3sAQ6YdSmgZjAWLX1
- Network: TRON (Mainnet)

4. Use Cases

- Logistics tracking & proof of delivery
- Driver and delivery captain rewards
- Smart dairy farm transactions (milk, health, pregnancy tracking)
- Agricultural trade and support

- Token-based ID verification
- Future staking and governance utility

5. Roadmap

Q2 2025: Launch on TRON Mainnet and build community

Q3 2025: Add ALI-X token tracker to website and open public airdrop

Q4 2025: Integrate ALI-X with logistics and farming prototypes

2026: List ALIX on DEXs and explore cross-chain expansion
